

Healthcare

#SteeliteExperience

from restaurantsupplystore.co.uk

Steelite is a world-leading manufacturer and global supplier of award-winning tabletop solutions. We provide contemporary and cost-effective ranges for the healthcare sector's challenging and ever-changing landscape. We are the trusted source of durable and serviceable tableware for hospitals, nursing homes and assisted living facilities around the world. We have made it our mission to be at the forefront of innovative manufacturing and dynamic design within the healthcare field.

The following collections contain meticulously selected ranges of ceramics, cutlery, melamine and drinkware, chosen for their functionality and versatility. These ranges showcase Steelite's passion for excellence and commitment to customer care. They encompass the very best of cutting-edge solutions for our healthcare facilities, their workers, their patients and their clientele.

Our Made for Life campaign

Promotes the benefits of British manufactured tableware, and underpins the four elements of our mission statement. This is our commitment to you. We make our products and serve our customers with this in mind – everything we deliver is for life.

INSPIRATIONAL
DESIGN

**We design our
products for life.**

EXCELLENT
QUALITY

**We make our
products for life.**

OUTSTANDING
SERVICE

**Our customers are
partners for life.**

MINIMISING
ENVIRONMENTAL
IMPACT

**We are helping secure
an environment that
is fit for life.**

The Steelite International Lifetime Edge-Chip Warranty

Is your assurance that all Distinction and Performance products manufactured in the UK factory will withstand the rigours of the modern commercial kitchen and remain chip free (10 years in Germany).

What Sets Us Apart

The Steelite International Lifetime Edge-Chip Warranty is your assurance that all Distinction and Performance products manufactured in our UK factory are fit for purpose. This commitment to quality excellence ultimately results in product that you will replace less often – great for your kitchen, great for your long-term costs and great for the environment.

Our Alumina Vitrified clay body offer our customers the opportunity to purchase sleek and elegant pieces with the security of durability and lasting product excellence. All Performance and Distinction products are made with high alumina content to ensure ultimate strength. 100% Vitrified Ceramics prevent crazing and cracking that lead to bacterial growth over time, thus enhancing sanitation and food safety efforts.

Each piece is inspected, examined and tested so you can be confident it will withstand the rigours of the modern commercial kitchen and remain chip free.

Secure Handle Adhesion

Every time you serve a customer with a Performance or Distinction cup or mug, relax in the confidence that the handle has gone through 7 different quality checks to ensure it stays where it belongs – on the cup!

Stackability

Stackable shapes result in space-saving solutions! A fully glazed base minimizes contact, preventing damage and wear.

Microwave & Freezer Safe

Our products offer complete versatility. However you work, be confident our products work with you.

Thermal Shock Resistance

Performance and Distinction products withstand temperature fluctuations of up to 350°F. Work with our products and work with confidence.

Heat & Chill Retention

Piping hot main course or ice-chilled desserts, serve your food as it is meant to be served.

Stain Resistance

All products have great stain resistance, which means you can work comfortably with any food time and time again... without leaving a trace.

Glaze Damage Resistance

Exclusive low-temperature glaze is great for your presentation and great for the environment.

Dishwasher Safe

Our products withstand the dishwasher better than most by enduring the rigours of the food service industry wash after wash.

Zero Waste Manufacturing

Steelite International work closely with a number of suppliers and organisations, and are continually monitoring, developing and improving procedures to create minimum impact on the community and environment, while ensuring maximum efficiency and cost savings for the future sustainability of the business.

Steelite International is a member of The Green Organisation that rewards and promotes environmental best practice around the world, and the Staffordshire Business & Environmental Network, which aims to help local businesses reduce environmental impacts while also generating profits.

We have a dedicated and innovative approach to caring for the environment. In 2019 Steelite were awarded an engineering gold Green Apple Award for the implementation of a waste water centrifuge system.

Our new centrifuge system works by spinning waste material out of waste water at very high speed, the water is separated from waste glaze and then reclaimed saving around 20 cubic metres of water per day. This has dramatically improved the quality of waste water that does leave site. A part from significantly reducing water, it saves glaze and lowers energy usage on site too.

In 2007, the business became one of only five companies in the UK to install a Lamella system. Steelite is the only tableware manufacturer to use a Lamella system for recycling clay waste.

In addition to clay recycling, fewer chemicals are now required to separate waste. This has a positive effect on the environment and water discharged from the site is also purer.

The Lamella has significantly reduced Steelite International's impact on the environment. The company now recycles in excess of 99% of manufacturing waste. In 2010 we received a Green Apple Award for the Lamella project.

plaster

Waste plaster moulds are recycled into plaster board material for the building industry.
822 TONNES RECYCLED IN 2019

water

Capturing process waste and re-introducing it back into our products saves on waste leaving site, reducing our impact on the environment

wood

Scrap wood from the site goes to a wood chip plant which turns the waste into chipboard for the building industry
54 TONNES RECYCLED IN 2019

refractory waste

Refractory waste (broken kiln furniture) is introduced as an aggregate used by several industries

paper

By using Woodland Trust printer paper, **we have helped to fund 1.86 hectares of new native UK woodland during 2019, to capture 743 tonnes of CO₂**

clay

The introduction of our Lamella machine in 2007 now allows us to recycle clay waste in water. This **allows us to produce 15,000 cups and saucers every year with the clay waste extracted**

energy

We monitor energy usage and monitor yield, paying particular attention to the amount of product we put into our kilns as poor kiln fill would lead to waste energy

less than 1% can't be recycled

The only waste that leaves our site destined for landfill is waste ceramic fibres as it is hazardous and has no other use. Less than 1% of our total waste by weight or volume goes down this route

elegantly embossed edge

Bead styling is crisp, timeless, and elegant. As such, it defines a classic approach to dining, one which embodies best practice for the back of house ease-of-use while delivering beautifully presented dishes to delighted diners. Bead celebrates the aesthetics, beautiful proportions, finesse, and gracefulness of 18th Century detailing inherent in designs crafted initially in fine silver. This provides an excellent frame to the food and elevates Chef's best efforts.

Bead consists of two elements: Bead and Bead Accents. The Bead range features the classic linear design, and is carried across the main range of items. The Bead Accents component offers an alternative decorative style to key presentation items alongside the classic iteration. The Bead Accents decoration provides a contemporary element that adds texture and visual excitement. Both can be mixed freely for a personalised collection.

The addition of a hand-applied wash of colour to the Bead range provides a subtle but refreshing accent. This softens the look and adds a casual approach to the way Bead presents food. Classic, timeless, and perfectly proportioned, the Bead range takes on a Scandinavian feel in either the truffle or sage colourways and works brilliantly in either a traditional or contemporary setting.

The use of hand-applied reactive glazes on Revolution Edge frames food beautifully, allowing for a slightly more formal approach to relaxed presentations. Revolution Edge allows food to be presented on a clean white platform complemented by a contrasting colour field. This has the effect of highlighting Chef's creativity, allowing it to speak for itself.

Revolution Edge can be used as a single colour presentation or mixed and matched freely with others in the range. It also co-ordinates beautifully with Revolution for a more casual and easy-going style.

Due to the unique hand decorated design of this range each item will be slightly different in colour and texture.

independence

The Freedom range is designed to help individuals maintain their independence by providing an innovative solution to eating and drinking.

Food and being able to feed oneself is one of the few independent pleasures left to those with age restricted mobility.

innovation

Freedom is a perfect example of an innovative range designed for a market with specific and sensitive needs. All of the product design features address problems that individuals may face with restricted mobility.

A complete range of standard items are available to co-ordinate with the offer, enabling people with restricted mobility to enjoy meals alongside their friends and family.

design

- Freedom plates feature a cleverly designed undercut shoulder which is helpful in getting the food onto a spoon or fork. This greatly enhances the ease of eating without assistance.
- A wide food area adds stability and helps to hold the plate in place during a meal. The curved rim profile catches any tricky overspill and prevents foods from slipping onto the tabletop.
- The mug features two sturdy handles large enough to accommodate unsteady fingers and enabling a steady satisfying drink.
- A wide base on the mug means easy placement after drinking and the avoidance of spillage.
- All ceramic items are available in pure white and a range of cheerful colours which aid recognition of the food surface.

trust

All ceramic products within the Freedom collection come with Steelite International's lifetime edge-chip warranty (10 years in Germany) so you can rest assured knowing that you are in safe hands.

inspiring innovative independent

Freedom has been developed and designed by Steelite to introduce a radical new product range that responds to the needs of today's patients in healthcare. Freedom Yellow and Blue with a two tone colour contrast is a vibrant warm and homely tableware collection that has been specifically designed to aid functionality and independence in eating and drinking whilst brightening up meal service for individuals with restricted mobility or memory.

The range can be co-ordinated with other standard ranges enabling people with restricted mobility to enjoy meals alongside their friends and family.

brightening up meal service

Freedom melamine Yellow and Blue is a collection that has been specifically designed to aid functionality and independence in eating and drinking whilst brightening up meal service for individuals with restricted mobility or memory. The Freedom plate (EL677) features a non-slip rubber foot to keep the plate in place.

shapes:

- Product shapes and capacities are aligned to food service portions
- All products fit commercial dishwashers along with most regeneration units
- Freedom undercut rim plate enhances the ease of eating without assistance

colour way:

- The vibrant colours and colour contrast enables patients clear visibility of food
- Bright colours give a relaxed and upbeat feel to meal times
- Improved food presentation results in less food waste

strong confident statement

Charcoal Dapple adds a new dynamic within this established and successful family. This black reactive decoration creates a strong and confident statement, giving chef a fantastic platform, in which the food presentation is amplified. Charcoal Dapple is perfectly positioned to work with all other decorated and white tableware ranges which provides flexibility to bring through seasonal and menu changes. Careful consideration has been given to ensure all plating options are complimented with a beverage offer.

Charcoal Dapple is guaranteed by the Lifetime Edge-Chip Warranty - allowing you to focus on client care, as opposed to the upkeep or condition of their dinnerware.

warm retro appeal

Rustic & minimal at the same time Brown Dapple blends effortlessly with the Craft and Terramesa offers allowing new and refreshed presentations to emerge. Cool coupes and stacking bowls help deliver elevated styles of food.

Whilst appearances may remind us of a bygone time the items and function of the pieces are extremely practical for today's busy kitchens and fast pace service. Brown Dapple allows the caregiver to de-institutionalise the dining process, providing a more "at home" experience.

Bespoke Badges

An effective way to make a visual statement is through custom decoration using your company logo.

With an array of product and colours to choose from, put your stamp on your tableware using our simple bespoke design service #steelitebespoke.

All Steelite International tableware that is manufactured in Stoke-on-Trent comes with a lifetime edge-chip warranty, giving you assurance that your chosen tableware will perform to the highest standard.

Creating your personalised tableware is as simple as 1,2,3...

Step 1

SELECT YOUR ITEMS

Over 150 different items to choose from!

Step 2

SELECT YOUR COLOUR(S)

Choose up to 4 colours from our Standard Palette of 18 colours.

Step 3

SUBMIT YOUR ARTWORK

Files need to be in vector format (eg: PDF, EPS or AI). Files such as GIF, JPEG or PNG are not acceptable.

At that point, we can take it from there to create your personalised tableware!

Lead Times:

- **CAD VISUALS:** 3 working days.
- **FIRED SAMPLE:** (if required) 7 working days.
- **PRODUCTION:** 30 working days from receipt of order AND approval of fired sample/cad visuals (whichever occurs last).
- Orders over 452 items may require additional production time.

Minimum order requirements for this service are:

- **INITIAL ORDER:** 300 pieces (mixed).
- **RE-ORDERS:** 156 pieces (mixed).
- Items ordered must be in full case quantities.
- Due to the bespoke nature of this program, quantities subject to 10% over/under allowance. Customers will be billed for the exact quantity shipped, not to exceed 10% over or under the quantity ordered.
- **12 case pack on all items is available on these items for this service.** (On items where the case pack is greater than 6 in the standard price list).

For the full Bespoke Badge brochure visit:
www.steelite.com/literature

Care & Use Instructions

Seventy percent of product damage/loss occurs at the dishwasher table. To avoid such damage, ensure that the dishwasher table has sufficient space to store dirty items and avoid overloading trays or trolleys.

All items should be separated into type prior to washing. All washing equipment chemicals should be maintained and checked regularly. Check stock often; storage facilities should allow for stock rotation to prevent overuse.

CERAMIC

- Should be washed within 45 minutes of removal from the table and pre-rinsed
- Avoid contact between china, dinnerware and metals
- Abrasive cleaning aids should not be used, i.e. scouring pads, steel wool, etc.
- Minimise handling to reduce glaze abrasion
- Do not stack more than 15" high
- In order to reduce abrasions, do not slide items across each other
- Be sure to rotate your stock to prevent uneven wear
- Only stack products that are designated stackable

MELAMINE

WASHING:

Melamine is a commercial dishwasher safe product. Do not use harsh or abrasive cleaners or cleaning agents. For best results, use only soft sponges or plastic bristle scrubber brushes to remove dried food. Do not use chlorine bleach or chlorine-based sanitising solutions when caring for melamine products. Only use sanitisers developed for commercial use. Consult your equipment company regarding proper products to use.

TEMPERATURE:

- Melamine products are heat-resistant for short periods up to 120°C. Melamine products can be used at temperatures up to 85°C without restrictions.
- Do not use in an oven or microwave.

CONDITION:

Use of serrated knives is not recommended on melamine. Proper care and maintenance will ensure the life span of your melamine products.

DESTAINING

- Periodically pre-soak melamine products before dishwashing to prevent staining and to maintain lustre.
- To prevent staining, use an oxygen-releasing compound such as Dip-It XP (ECOLAB).

CREATIONS WOOD

To best maintain product finish and condition:

- Do not place near an open flame or grill
- Products should be stored in a dry location, at room temperature.
- Do not store near heat sources or in humid places.
- This product should not be used in the dishwasher, oven, microwave or freezer
- Clean with a soft damp cloth or wash with hot soapy water, do not soak in water or wash with harsh detergents
- Sanitise using an antibacterial spray or food safe liquid sanitiser
- Dry promptly after cleaning, ensure products are dry before stacking
- In order to maintain product finish and condition, apply a light coat of mineral oil with a clean dry cloth, to prevent wood from drying and cracking.
- Do not leave in direct sunlight for long periods of time

DRINKWARE

ASPEN EVERCLEAR DRINKWARE

- Freezer safe
- Safe with hot and cold liquids
- Commercial dishwasher safe
- High-Temp dishwashers are recommended
- Low phosphate and low chlorine washer detergent and sanitiser (e.g., Ecolab's Apex2 system) are recommended
- When using a 3-tier washing system, avoid using scratch pads or abrasive brush scrubbers
- After washing, store glasses dry
- Towel dry with soft cotton buffers or towels and polish glasses for best results

CUTLERY

- Cutlery should be washed separately from dinnerware
- Wash as soon as possible to prevent pitting from acidic food deposits
- A pre-soak in warm water is recommended to loosen food particles
- Make sure your cleaning agent is void of any abrasive or corrosive qualities
- Use upright baskets to prevent scratching and to aid drying
- Do not overfill the upright cutlery baskets
- If using a low temperature dishwashing system, carefully follow the manufacturer's instructions to avoid staining or corrosion
- On completion of the wash, allow the cutlery to air dry, hand dry if necessary
- Be sure cutlery is completely dry before storing in a dry location away from the kitchen

STEAK KNIVES

WOOD HANDLED KNIVES

- Handwashing is recommended for the best performance and optimal product life
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly
- Water and harsh detergents will dull the finish and dry out the handles
- It is recommended that the wooden handles be oiled as needed

ABS (RESIN) HANDLED KNIVES

- Low temp dishwasher safe
- Wash knives with warm water and a mild detergent,
- Rinse well and dry thoroughly
- Not recommended for high temp dishwashers that exceed 167°F / 75°C
- Knives should not be exposed to extreme temperature changes, which will cause the abs handle material to crack over time

STAINLESS STEEL KNIVES

- Dishwasher safe
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly

BLADE SHARPENING

- Serrated blades cannot be sharpened
- Blades with no serrations can be sharpened as needed
- The frequency will depend on how often the knives are used and how well they are maintained

THINGS TO AVOID

- Avoid soaking knives; they should be cleaned immediately after use to prevent damage caused by certain foods
- Avoid using abrasive cleaners, scouring pads, oven cleaners or cleaners containing chlorine bleach or citric extracts
- Avoid cutting on hard surfaces such as stone, metal or glass
